As you are aware, changes in Immigration Law and recent new compliance expectations, make it difficult to keep up with the fluid changes and how it impacts US Businesses and Corporations that employ Foreign Nationals.

In light of what recently happened to the IFCO Corporation regarding criminal violations of the Employer Sanction Legislation (I-9), the arrests of approx. 1,000 illegal aliens on IFCO property, and the arrests of corporate executives on Criminal charges, your company may be considering proactive action to ensure you are in compliance!

“The construction industry is the #1 target for ICE inspections and they know it and fear it already. At the same time it is the industry with the largest shortfall in labor.
